## CLIENT TESTIMONIALS

Johnny sexwale ★★★★★

*"Thank you Genworx for the job well done. The Technicians were so friendly and professional and they made sure that they clean the generator thoroughly in and out after servicing unlike the previous manufacture's service Technicians"*

Shannon Geoghegan-TCL ★★★★★

*"Brilliant! From international company Trade Corp logistics Dubai and Barrick Gold AME {Africa Middle East} - Keep it up Genworx!"*

Zelda Sharp-Zodiac ★★★★★

*"Loved having this young dynamic team work for us!! Their service was beyond expectations and they serve to please. I'd highly recommend them to family and friends"*

Michael Braby ★★★★★

*"What a delight to have Melissa on the phone, so on the ball and professional! Two technicians arrived to diagnose why my genie was not starting and within 5 minutes advised on the problem. No call out fee to visit, only if a repair is necessary, then a quote will follow. This was so much more attractive than the manufacturer, who quoted a crazy price just for travelling and a one hour call out. I highly recommend you give GenWorx a call! Well done guys and thanks very much"*

Kobus Cilliers ★★★★★

*"Excellent and efficient service! They arrived on the first call with parts on hand to Repair the issue and get us back up and running. Highly recommended!"*

David Tromp-Demax ★★★★★

*"Professional friendly and most importantly know what they're doing- thanks"*

Andrew Human-Blind Tiger ★★★★★

*"Chad and Piet are very knowledgeable, experienced, hard-working and a pleasure to work with"*

Kallie Douglas ★★★★★

*"Fast response, Qualified and well trained staff. Will definitely recommend"*
